DOG WAS MAD SAYS STATE VETERINARIAN

Dr. Moriarty Receives Telegram from State Veterinarian at Philadelphia which Says Dog which Bit Gettysburg People was Mad.

Dr. M. Moriarty this afternoon received a telegram from State Veterinarian E. H. Gilliland, Philadelphia, which stated that the dog's head sent to him for examination showed that the animal had been afflicted with rabies.

The telegram said:—
Dr. M. Moriarty, Gettysburg,
"Diagnosis Rabies on dog's brain received at laboratory February the seventh. Letter follows."

S. H. Gilliland,
State Veterinarian.

It will be remembered that on Friday the dog bit two Gettysburg citizens, a college student and attacked several other persons finally being killed that night West of town. The persons bitten have not been notified of the report but have not yet decided what course they will pursue.

Dr. Moriarty packed the head in ice on Saturday and shipped it to Dr. Gilliland at the state laboratories in Philadelphia, asking that a prompt examination be made. As Sunday intervened it was not until Monday that work was commenced.

Dr. Moriarty wrote again on Monday asking that all haste be made and this afternoon the telegram was received telling of the result of the test.

BIG MEETING

A large attendance from all over the county is expected at the Laymen's Missionary Meeting to be held in St. James Lutheran church Thursday. Luncheon will be served at noon in the Sunday School room of St. James church instead of the College church as formerly announced. The programs for the session at the time of the luncheon and in the evening at seven o'clock have appeared in these columns. The evening session will be open to women as well as to men.

FOR RENT 5 room house on Steinwehr avenue, with good garden and stable. Apply to G. J. Bushman, 22 Carlisle street.

TWO CHURCHES GET BEQUESTS

St. James Lutheran Church Remembered by Sarah Baltzley. John Irvin, of Buchanan Valley Leaves Money to Churches.

By the will of the late James Irvin, of Buchanan Valley, his home farm and the one adjoining, known as the McKenrick farm, both situated in Franklin township, became the property of his brother, John Irvin. The machinery, household effects and stock together with the residue of the estate are also bequeathed to John Irvin. To Jane Livers he leaves \$1500 and to Samuel Irvin \$1000. The will gives \$75 to the St. Ignatius church and the same sum to St. Joseph's church of Harrisburg. Several smaller bequests are made. Dr. W. Edgar Holland is made the executor.

The will of Sarah Baltzley, who died last week at the home of Henry Barbehenn on North Stratton street, leaves \$100 to St. James Lutheran church. The will directs the disposition of a number of personal effects together with several bequests of money to nieces and nephews and other relatives and also directs that those who rendered her special medical and legal services be well paid. The will makes Dr. J. R. Dickson executor and Wm. Arch McClean, attorney for the executor.

PARTIES

On Monday evening a pleasant and enjoyable surprise party took place at the home of Mr. and Mrs. David B. Topper in honor of Mrs. Topper. Those present were: Mr. and Mrs. David B. The revival meetings at the Church of the Brethren on Stratton street are growing in interest. The evangelist D. C. Flory who is doing the preaching was the founder of the college at Bridgewater, Virginia, and has been active in church and educational work all his life. His sermons are exceedingly interesting and his attack upon the evils of the day are great. His example in fearlessness and sincerity should greatly inspire the Christian people of Gettysburg. If you want to spend an hour profitably come and hear him.

NEWS FROM ALL PARTS OF COUNTY

Short Paragraphs of News Collected from all over the County Telling of the Doings of Adams County People.

Adams County's rural residents are now enjoying their annual practice of attending the Spring sales. All of the sales held up to this time have been well attended and the prospects are good for large crowds at all of the sales, provided weather conditions are reasonably good.

The school teachers of Adams County are expected to come to Gettysburg in large numbers on Saturday of next week for the second institute of the year. Prof. Roth has secured several excellent speakers for the occasion.

Reports of the condition of the county roads show that traveling is far from pleasant in many places. The main roads are in good condition but the cross roads in numerous places are in bad shape.

People who send in accounts of surprise parties are again asked to send them in immediately after the events occur. Frequently people wait until a week after the party is over and it is scarcely worth while to send them in that late.

Within the last year a larger number than usual of Adams County residents have remembered various county churches in their wills. Elsewhere today will be found the accounts of several wills in which small bequests were made.

Reports of large logs being butchered continue to come in. Only two were reported in the county this year which went over the 600 pound mark.

During the sleighing of the past few weeks large numbers of the teachers in the town and county schools treated their scholars to sled rides. Many of them visited other schools and the boys and girls had very pleasant afternoons. The Gettysburg teachers in several instances gave their schools this pleasure.

In many parts of the county there are still a number of cases of measles and kindred diseases. Some whooping cough is reported also. The families in which the latter disease occurs are taking special care to prevent friends from contracting the disease and allow none but the family to enter their homes.

With factories in almost every town of any consequence in the county Adams County is becoming quite an industrial center. There are only two or three towns of any considerable size which do not have one or more industrial establishments employing from twenty to fifty "hands."

WHITE CHURCH

White Church, Feb. 9.—Mr. and Mrs. I. Willis Applier, of Gettysburg, spent Saturday evening and Sunday with George Little and family.

Miss Laura Wolford has returned from Biglerville where she had been sewing for some time.

GOOD ENTERTAINMENT

A recital will be given in Walter's Hall, Biglerville, Saturday evening, Feb. 19, by Miss Bertha B. Herring, of Harrisburg, assisted by music by the Arendtsville Glee Club.

Miss Herring is quite a famous reader and pleases large audiences wherever she appears. Her manner, selections and presentation are exceptionally pleasing and those who have once heard her will not miss the opportunity of hearing her again, while those who have not heard her will be delighted after having the opportunity.

The chart for reserved seat tickets will be open at G. H. Knoose's store on and after Feb. 12.

CHURCH NOTICE

BIOGRAPH BIOGRAPH

THE HONOR OF HIS FAMILY

To the Virginian family pride and honor meant everything, and when old Col. Pickett bids his son adieu on the young man's departure for the front, his injunction was: "My Boy, emulate the brave deeds of those who have gone before you. Be fearless, brave and fight, fight." See how this turns out.

U. S. ARMY MANEUVERS, FORT LEAVENWORTH

The greatest military picture ever released. Review of troops, Cavalry charges, fancy and bareback riding, battle scenes, and many other features, making it the greatest picture of its kind ever produced.

Remember, you can see a full show, both before and after the Basket Ball game.

5000 GO TO SCHOOL HUNGRY
And 10,000 Other Children in Chicago Insufficiently Nourished.
Washington, Feb. 9.—Five thousand children who attend the public schools in Chicago are habitually hungry, and 10,000 other children in that city are not sufficiently nourished, according to a letter from the superintendent of schools of Chicago, from which Representative Henry, of Texas, read excerpts in the house.
"Texas," declared Mr. Henry, replying to a recent speech in defense of the new tariff law delivered by Representative Boutelle, of Illinois, "is prosperous in spite of the Payne-Aldrich tariff bill. If that law had anything to do with the prosperity of Texas, why does it not bring prosperity to Chicago and other great cities of the country?"
"What do you know about white babies in Chicago selling for from \$1 to \$3 each?" asked Representative Rucker, of Missouri. No one replied.

BALLINGER TWISTS SENATE
Apologizes For Trying to Fracture Rules By Introducing a Bill.
Washington, Feb. 9.—Secretary Ballinger, of the interior department, who was rebuked by the senate the other day for his temerity in attempting to introduce a bill in which his department was interested, "got back" at the senate.
A note couched in the humblest and politest of tones was received from Mr. Ballinger by the senate. In it he explained that he never intended to do so great a breach of senatorial etiquette as to contravene the rules. Then he promised never to do it again, and added "Thanks."
The note was received with much satisfaction and smiles until the senators got to thinking it over. Now they are wondering who the joke is on.

MCKINLEY'S ENEMY COMMITS SUICIDE
Man Who Applauded Assassination Driven to End Life.
Pittsburg, Feb. 9.—Casper Limbach, a wealthy man with anarchistic principles, who came prominently into the limelight just after the assassination of President McKinley, through his utterance "That McKinley deserved just what he got," committed suicide by shooting.
His wife declares the shooting was caused by the continued persecutions he had undergone at the hands of his neighbors since applauding the death of McKinley. He has been burned in effigy, pelted with stones and at times crowds have gathered to lynch him.
As a result of the damage to his property, Limbach sued the county and was awarded several thousands of dollars.

Two Negroes Hanged.
Kansas City, Mo., Feb. 9.—For a crime so brutal that its details were only whispered in court, George Reynolds and Harper Irving, negroes, were hanged here. The two negroes attacked Mrs. F. H. Jackson on the night of Dec. 23 in a residence part of the city and dragged her to a vacant lot, where they held her for two hours with a razor at her throat. She will probably be an invalid for life as the result of her treatment.

Parrot Gives Fire Alarm.
New York, Feb. 9.—"Oh, my! Dear me! Fire! Fire!" were cries that awakened Mrs. William Bows. Running into the room, Mrs. Bows found it filled with smoke, from the thick of which her highly prized South American parrot, an educated talker, had given an alarm in plain language that probably saved the building from burning over the heads of scores of tenants.

Baby Freezes to Death.
Sayreville, N. J., Feb. 9.—John Piller, three years old, was frozen to death while trying to find his way home from his aunt's house, near here. The baby's father found the body in a swamp. The child had been missing ten days. The little fellow's aunt had brought the boy almost to his house. Thinking he would find his way home, she left him.

Catarh Cannot Be Cured
with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarh is a blood or constitutional disease, and in order to cure you must take internal remedies. Hall's Catarh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarh Cure is not a quick medicine. It was prescribed by one of the best physicians in the country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarh. Send for testimonials free.

DIED AFTER TAKING CAPSULE
Nurse Describes Last Moments of Millionaire Swope.
HYDE ORDERED TABLET
Declares Physician Asked Her to Influence Patient to Name Him as Executor in Place of Moss Hunton, Who Also Died Suddenly.
Kansas City, Mo., Feb. 9.—Miss Pearl Kellar, the nurse who attended Colonel Thomas H. Swope, the millionaire philanthropist, who died suddenly, created a sensation at the inquest at Independence. She said that Dr. B. C. Hyde, a relative of the Swope family by marriage, asked her to persuade Colonel Swope to name him as one of the executors. She declared that Dr. Hyde had given the millionaire a capsule which he said contained a digestive medicine. It was immediately after this that Colonel Swope's condition grew worse, the nurse said, and convulsions speedily followed.
Miss Kellar described the symptoms of the attack, the diagnosis by Dr. Hyde as apoplexy, the treatment and finally death. Told in a quiet, unassuming manner.
Miss Kellar first told of an interview she had with Dr. Hyde on the night that Moss Hunton, Colonel Swope's administrator, died.
"About twenty minutes after Colonel Hunton died," Miss Kellar said, "Dr. Hyde said he had something to ask me. 'I am not a business man,' he told me, 'but then I can care for things pretty well. Colonel Hunton is dead. In a few days Colonel Swope will make a new will. There will be a new man in the place of Hunton as administrator. You have influence with the old man. I want you to suggest me as his administrator.'"
Would Not Consent.
"I told Dr. Hyde I could not do that, as I would be overstepping my bounds. He tried to persuade me it would be all right for me to talk to Colonel Swope about the matter and that I could do it very nicely. But I would not consent to it."
Then Miss Kellar told of the scenes on the morning Colonel Swope died.
"Dr. Hyde asked me whether Colonel Swope had eaten. I told him he had. The doctor then told me he had some digestive tablets and wanted Colonel Swope to have one. Dr. Hyde took a capsule from a small pink box. 'Give this to him,' Dr. Hyde told me. Shortly after taking it a peculiar breathing sound from the bed caused me to look up. Colonel Swope's face had changed. His eyes were set and wild, and the pupils were dilated. Colonel Swope began to tremble and the color of his face began to change.
"Colonel Swope," I called, 'Colonel Swope, Colonel Swope! What's the matter?' But Colonel Swope couldn't answer me.
"Suddenly his eyes turned from the window to the ceiling and the wide open, dilated appearance was still there. The colonel's face was terribly pallid, and in that pallor there began to creep a slight blueness. From his throat there came peculiar sounds and then the eyes became expressionless. I ran to the door and jerked it open. Mrs. Hyde was just passing.
"Run and tell Dr. Hyde to come here quick," I said. It appeared to me he was long in coming. I sent another call for him. As soon as he had exclaimed Colonel Swope he said:
"Hyde said it was Apoplexy."
"It is apoplexy, brought on by the death of Colonel Hunton."
"It was just twenty minutes after I gave Colonel Swope the capsule that the convulsion came on. When Dr. Hyde came upstairs he did not do anything for Colonel Swope at first, and then he suggested that I give him a hypodermic injection of one-sixtieth of a grain of strychnine every fifteen minutes for awhile.
"Along towards night Dr. Hyde and I both sat on the bed, taking Colonel Swope's pulse. Dr. Hyde kept saying that the colonel was failing rapidly. I said that I could not see it, and Dr. Hyde left his side of the bed and came to mine and took the pulse I had been taking. He said that he could not feel the pulse, but I could feel it. Soon after that I went to dinner, and when I returned Dr. Hyde and Mrs. Hyde were bending over the bed. Mrs. Hyde turned to me when I came in.
"Uncle Thomas has passed away," Mrs. Hyde said to me. 'He died so easily.'"
Dr. Ludwig Hektoen, a Chicago toxicologist, testified that strychnine had been found in minute quantities in the stomach of Colonel Swope and that one-sixth of a grain of strychnine had been found in one-seventh of the liver.

COKE PRICES DROP
Tumble From \$2.50 to \$2 in Less Than a Week.
Pittsburg, Feb. 9.—Connellsville coke has taken the most sensational price tumble this week in the history of the industry. Since last Friday the price of coke has dropped from \$2.50 to \$2 and even to \$1.90, while contract coke, on which the manufacturers were asking \$2.65 a week ago, is being offered at \$2.25.
The independent operators in the Connellsville region are demoralized. Efforts are being made to revive the merger plan which failed last year, as the only solution to the situation.
Overproduction in the Connellsville field, coupled with the failure of the steel corporation to take coke from the open market for the first half of the year in as large quantities as was expected, is blamed for the present situation.

Brooklyn Man Asserts That Polar Explorer Is in West Indies.
New York, Feb. 9.—Dr. Frederick A. Cook, whose claim of having discovered the North Pole was discredited by the Danish scientists, and whose whereabouts for many weeks has been a complete mystery, has been discovered in Bermuda, according to a report printed in the Globe.
The discovery of Dr. Cook's whereabouts was made by G. J. L. Doerschuck, of Brooklyn, who arrived here from Bermuda.

CANNERS DON'T NEED BENZOATE OF SODA
Demand Enforcement of Pure Food Laws.
Atlantic City, Feb. 9.—That the reputable American packer needs no benzoate of soda or other poison to preserve the fruits and vegetables which he places in his cans, is being harmed rather than benefited by the decisions of federal food supervisors under which sulphate of copper, used to green so-called "French peas," is exempted from the rules against foreign substances in cans and is ready to turn to the newspapers and magazines for assistance in having real pure food laws enforced, while other preserving industries are making every possible effort to prevent the enforcement of proper labeling laws, members of the National Canners' association are preparing a campaign to force the government to carry out a rigid inspection of every cannery in the country, and the greatest work of the association, which opened its annual convention here, will be toward securing both enforcement of present pure food laws and the enactment of still more stringent inspection statutes.
"We demand that the label show just exactly what is in the can," declared President Walter O. Hefficker, of the Tri-State Packers' association, whose members in New Jersey, Delaware and Maryland represent the greatest proportion of the fruit and vegetable packing industry of the country.

TAFT MAY NOT WELCOME T. R.
He Heartily Approves Plans, But May Be in Alaska Then.
Washington, Feb. 9.—John A. Stewart, president of the New York State League of Republican clubs, arrived here and will confer with President Taft regarding the home-coming celebration in honor of former President Roosevelt.
A cablegram was received from Mr. Roosevelt accepting the proposal of the New York Republican club to form a national reception committee, with representatives from all over the country, to meet him on his arrival in New York harbor some time between June 15 and 21 next.
President Taft is giving his hearty support to the plan for a nation-wide reception to Colonel Roosevelt. It has not yet been determined whether or not President Taft will be able to take any part in the reception, for he plans to go to Alaska in the spring.

MINE CAVE IN
Old Workings at Plainsville, Pa., Give Way.
Wilkes-Barre, Pa., Feb. 9.—Alarm was caused at Plainsville, near here, by a cave-in similar to that which engulfed a small boy and over old workings of the Lehigh Valley Coal company's mines. The cave-in was beneath the track of the Wyoming Valley Traction company, and service had to be suspended for several hours until the large hole was filled. It also badly damaged the house of John Hevey, swallowing a section of the foundation wall.

Sore Throat Wisdom
If every mother could realize the danger that lurks behind every case of sore throat, she wouldn't rest until she has effected a cure every time a child has it.
Your family physician will verify the statement that it is a positive fact that every child with sore throat is in immediate danger of contracting Croup, Quinsy, Tonsillitis or Diphtheria, and is not removed from that danger until the throat is cured. Think of it!
Liniments or outward application of medicines do not and cannot cure the ailment, though they may offer temporary relief. Neither can you cure sore throat with a cough syrup or a cold cure.
To cure, you must get at the seat of the disease, removing the cause. Nothing does that so quickly, safely and surely as **TONSILINE**. A single dose of **TONSILINE** taken upon the first appearance of sore throat may save long weeks of sickness, great expense, worry, even death. **TONSILINE** is the stitch in time.
Use a little sore throat wisdom and buy a bottle of **TONSILINE** today. You may need it tomorrow.
TONSILINE is the standard sore throat remedy—best known and most effective and most used. Look for the long necked fellow on the 25 or 50 cent sized bottle when you go to the drug store to get it. The Tonsiline Co., Canton, Ohio.

The lady dean of a well known girls' college, being very much annoyed that the girls after chapel on Sunday mornings waited around the entrance of the assembly room and stood in groups on the stairs instead of dispersing at once, resolved to institute a reform. So at the regular chapel service one morning she arose with much dignity and made the following remarks:
"I have noticed a growing tendency among you young women to linger about the chapel Sunday mornings, blocking the halls and stairs. Hereafter the following order will be preserved in leaving chapel: First the president will pass away, then I will pass away, then the faculty members will pass away, and finally the student body by classes will pass away, and we will all meet below!"
She never finished her sentence.

PIMPLES

ACCUSED OF TAKING BRIBE

Says He Gave New York Legislator \$1000.

TO KILL BRIDGE LEGISLATION

Hiram Moe Declares He Paid Senator Allds \$1000 and Divided \$5000 Among Two Others — Money Was Placed in Envelopes.

Albany, N. Y., Feb. 9.—Hiram G. Moe created a sensation at the trial of the Conger bribery charges in the state senate when, on the witness stand, he said he paid Senator Jotham P. Allds \$1000 to help kill certain bridge legislation.

This man is Hiram G. Moe. He has been an employee of some of the Congers since he was seventeen years of age, and he now lacks a year of three score.

At the time he says he paid Allds the money Moe was the private secretary of Frank Conger, the active mem-

ber of the Conger family in the bridge business, and brother of Senator Benn Conger, who made the charges against Senator Allds. The bribery is alleged to have taken place on April 23, 1901, and Frank Conger died early in 1902.

Money Placed in Envelopes.

Moe, in the open senate, testified that he left Groton, Tompkins county, on April 22, 1901, and reached Albany that night with \$6500 in currency, which was given him by Frank Conger in Croton. At the direction of Senator Benn Conger, he swears, \$4000 of this money was placed in one envelope and sealed and the name of the assemblyman who was to get it written on the back by Moe, who then placed \$1000 in a second envelope and sealed it, and \$1000 in a third envelope, which was also sealed. The names of the two assemblymen who were to get the \$1000 were written by Moe on the back of the respective envelopes. At the direction of Senator Conger, Moe swears these sealed envelopes were handed by him to the three assemblymen for whom they were intended, and that Senator Allds got one of the envelopes containing \$1000. Who got the other two envelopes wasn't divulged, and Conger's attorneys stated that they wouldn't make known their names unless the senate requested it or counsel for Allds insisted upon it.

Senator Edgar T. Brackett made it plain that the other two names should not be brought into the proceedings, as they would be unable to protect themselves in these proceedings.

Moe declared Senator Conger introduced him to the man to whom he paid the \$1000 envelope and also introduced him to Senator Allds, but that Senator Conger didn't see him hand the \$1000 in the envelope to the third assemblyman. Moe's story of how the \$6000 was fixed up in Conger's apartment was graphic. Moe carried the money in the envelopes in his pocket to the capital. Meeting Allds in the capital, Senator Conger is alleged to have said to Moe: "This is Assemblyman Allds coming now," and Moe and Conger approached the then assemblyman.

"Joe, this is the representative of my brother Frank," Senator Conger is alleged to have said, and Moe claims he then said to Allds:

"Mr. Allds, Mr. Conger told me to give you this amount," handing Senator Allds the envelope.

Before Mr. Moe's direct examination was over, Mr. Osborne asked him if he was sure the assemblyman he gave the envelope to containing the \$1000

in April, 1901, was the present respondent, Senator Allds.

Mr. Moe turned and looked Senator Allds squarely in the eye and the senator grinned.

"Yes, I'm sure it's the same Senator Allds," replied Mr. Moe.

"And you are certain he is the man you handed the envelope to containing the \$1000?" asked Mr. Osborne.

"I am sure," answered Mr. Moe.

Before Moe testified Senator Benn Conger filed a sworn bill of particulars. He declared that "the person who delivered \$1000 to Allds on or about April 23, 1901, was Hiram G. Moe, of Groton, Tompkins county." "This sum," he asserts, "was demanded by Allds of Benn Conger and Frank Conger in the interests of the American Bridge company, a corporation."

When Curates Were Wanted.

When one learns that curates are increasing so much more rapidly than benefices, wonder is excited as to the condition of affairs in the eighteenth century, when enterprising ladies offered livings to clerical men willing to marry them. An advertisement to this effect appeared in the London Chronicle in March, 1758. The lady was rather particular too. The curate was to be young, have a small fortune, be well recommended as to morals and good temper, and be truly attached to the present happy establishment. The living was not rich—below £100 per annum—but the fair one was young and agreeable. There seems a touch of humility in the direction that answers "may be left at the house of the Union Coffee House, Strand, directed to Z. Z." Confidence was created by the assurance that "the utmost secrecy and honor may be depended upon."—London Chronicle.

DOCTOR TOLD HER TO USE CUTICURA

And Thus Cured a Scalp Disease Like Scald Head — It Had Lasted Several Months and Made Most of the Sufferer's Hair Fall Out.

TROUBLE SOON GONE AND NEVER RETURNED

"When I was ten or twelve years old I had a scalp disease, something like scald head, though it wasn't that. I suffered for several months and most of my hair came out. KING GUSTAVE RALLIES

Royal Patient Shows Improvement After Appendix Is Removed.

Stockholm, Feb. 9.—It was officially announced that King Gustave was progressing towards recovery as rapidly as was to be expected following the operation for appendicitis. No complications have arisen from the surgery, the announcement of which in the papers took the capital and country by surprise.

For three days the king had suffered with abdominal pains, which an early diagnosis seemed to indicate were due to catarrh of the stomach. On a more thorough examination the physicians reached the conclusion that appendicitis had developed, necessitating an immediate operation. At 10 o'clock Monday night the royal family, several members of which were spending the evening at a concert, were summoned to the palace, and soon afterwards the operation was performed.

STEEL STRIKE SPREADING

2500 Hungarian Laborers Stop Work at Bethlehem Plant.

Bethlehem, Pa., Feb. 9.—Two thousand and five hundred Hungarian laborers joined the strike begun by the machinists at the Bethlehem Steel works. There are now nearly 800 machinists out of strike and 500 electrical workers, drop forge employees and molders may quit at any time.

Some of the strikers who went to the works for their tools were offered 75 cents additional per day, they claim. If they went back to work, but the offer was spurned. At the steel company's office the officials said they had no statement to make.

The Hungarians say their fight is for a ten-hour work day at 15 cents an hour.

MILLIONS LOST TO MRS. HARRIMAN

Shrinkage in Market Value of Stocks is \$24,000,000.

New York, Feb. 9.—Shrinkage in the market values of stocks means more to Mrs. Mary A. Harriman, widow of the late Edward H. Harriman, than to any other woman in the world. Upon her holdings of Union Pacific and Southern Pacific alone the shrinkage in market value from the recent high points in 1909 to the low prices of Tuesday, the loss is no less than \$24,000,000.

The high point was reached last August, and since that date Mrs. Harriman's losses upon these stocks have averaged \$4,000,000 per month, though the chief shrinkage has been since the beginning of this year.

One of the stories which is heard about Wall street is to the effect that certain interests are ambitious to possess the Harriman holdings of the "Pacifies" and that they are withholding support from the stock market at this critical time, hoping that Mrs. Harriman may be influenced to sell her vast holdings, which amount to 104,150 shares of Union Pacific common of a par value of \$10.415,000, and 1,056,950 shares of Southern Pacific of a par value of \$105,695,000.

The shrinkage in Union Pacific since last August has been \$40 per share, and upon Southern Pacific \$19 per share. It is said that the argument made to Mrs. Harriman is that she cannot possibly look after her railroad interests, and that the close attention of the very able financiers and railroad men of the country is required to keep the great railroad systems upon a profitable basis. Supported by the declining values, the arguments have additional weight, and may become effective.

Thaw Homestead Leased.

Pittsburg, Feb. 9.—The old William Thaw homestead, in many years past one of the show places of downtown Pittsburg, which has been a white elephant on the hands of the Thaw estate since the family moved from the central section of the city to the million dollar mansion on the boulevard, has been leased to a business college for a long term of years.

Strike Big Vein of Coal.

Wilkes-Barre, Pa., Feb. 9.—Members of the Pennsylvania Forest Coal company, which recently began operations between Beaver Meadow and Wetherly in the Lehigh region, received word that the shaft now being sunk has reached the big Wharton vein at a depth of about forty feet.

Eggs Ordered Destroyed.

Pittsburg, Feb. 9.—Federal judges Orr and Young made an order, upon application of the United States district attorney, that a shipment of 25,000 storage eggs be destroyed. The shipment was received in this city from Baltimore last week.

Two Dogs Kill Forty Hens.

March Chunk, Pa., Feb. 9.—Two young dogs owned by Josiah Strohl, a farmer residing about ten miles from this place, killed forty of his laying hens in one day. The dogs, which are young, played with the hens until all were dead.

Wants \$100,000 Heart Balm.

New York, Feb. 9.—A suit for \$100,000 for breach of promise brought by Emma Hoffman, a singer, against Samuel Kraut, of Berlin, who is a member of an importing firm here and in Chicago, was sent from the state court of the United States court.

SWEEPING PROBE OF LIVING COST

Senate Republican Leaders Agree on Inquiry.

ELKINS WINS HIS FIGHT

Investigation Will Cover Wages and Cost of Living Over the Entire Country — Committee Ordered to Suggest Remedy.

Washington, Feb. 9.—The Republican leaders in the senate perfected a resolution directing an investigation into the cost of living. It was introduced by Senator McCumber, of North Dakota, and takes the place of the several resolutions presented in the senate.

It was referred to the committee on contingent expenses, which will consider the question of cost of conducting such an inquiry.

In making the investigation it is provided that special attention shall be given to the following subjects:

Wages, salaries and earnings, and whether the increase in them has kept pace with the increase in the cost of living.

Increased cost of such articles as meat, grain, provisions, cotton, wool, clothing, rents, lumber, coal, iron, oil, brick and cement.

Price to the producers, the wholesaler or jobber, retailer and the consumer at which articles, included in the investigation were distributed and sold in the year 1900, and the price for their disposition and sale at the present time.

The cost of production of the articles mentioned and the cost of their distribution and sale when in the hands of the wholesaler or jobber and the retailer, between the same periods.

Whether such articles have been increased in price by reason of the increased production of gold throughout the world and the expansion of the currency in the United States, or by tariff or other legislation of congress or by any monopoly, combination or conspiracy to control, regulate or restrain interstate or foreign commerce in the supply, distribution or sale of such articles.

The prices of food products on the farm in various parts of the United States.

Wholesale prices of such food products at the wholesale trade centers of the United States.

Retail prices of such food products in the larger cities of the United States and also a comparative statement showing the costs of production on the farm.

The committee is ordered to report to the senate, suggestions or recommendations as to the remedy to be applied to reduce the cost of living and accompany its report with drafts of bills for legislation as will, in the opinion of the committee, correct and remove the causes which have enhanced the prices of the necessities of life.

Elkins Wins His Fight.

The resolution for the inquiry bears the name of Senator Elkins as author and embodies the principal features of the McCumber resolution as well as some of those contained in the one introduced by Senator Lodge. This is a victory for Elkins.

The inquiry is to be conducted by a select committee of seven senators, and it is planned to assemble all of the information possible bearing upon the increased cost of articles of food since 1900 and report if possible at the present session of congress.

That the ultimate consumer is always the victim in the war of high prices was brought out in the hearing before the house committee, headed by Representative Moore, which is investigating the cost of food.

The food inspector of the health office of the District of Columbia demonstrated that the retail grocers are not the only ones who resort to the boycott, and that the only person who cannot adopt this means of defense is the ultimate consumer. The inspector testified that commission merchants boycotted retailers if they bought their produce direct from the farmers.

Henry Pinckney, a colored messenger in the executive offices of the White House, who served as steward under the Roosevelt administration, denied the testimony given before the committee that "putrid" meat had been served to President Roosevelt at the White House.

Pinckney declared that Mrs. Roosevelt always supervised the purchase of market supplies, and that only the freshest meats were served at the White House table. He also said the meat was bought, not in quarters as was testified, but from day to day, as needed.

Frozen to Death in Alley.

South Bethlehem, Pa., Feb. 9.—Adam King, of Wassergasse, was frozen to death while on his way home, and his body was discovered in a side alley at Hellertown. King evidently had been to the store for a supply of groceries, for beside his body was found a basket full of provisions. In his clothing was found \$35.

President's Brother Out of Hospital.

Los Angeles, Cal., Feb. 9.—Henry W. Taft, brother of the president, has recovered sufficiently from his attack of pneumonia to leave the hospital.

Living.

A wearied pilgrim, I have wandered here Twice five-and-twenty, bated me but one year. Long have I lusted in this world, 'tis true, But yet those years that I have lived are few. Who by his gray hairs doth his lusters tell Lives not those years but he that lives them well. One man has reached his sixty years, but he Of all those threescore has not lived half three. He lives who lives to virtue. Men who cast Their ends for pleasure do not live, but last. —Marriott.

"My little daughter who was afflicted with St. Vitus' Dance is now entirely well after taking Dr. Miles' Nerveine only four months."

MRS. C. G. BENNETT, Alma, Mich.

Epilepsy, Fits, St. Vitus' Dance and Spasms, are all nervous diseases. They have been cured in so many instances with Dr. Miles' Nerveine that it is reasonable to conclude that it is almost sure to cure you. With nervous diseases of a severe type, persistent use has almost invariably resulted in a complete cure or lasting benefits, worth many times the cost of the remedy. The best evidence you can get of its merits is to write to those who have used it. Get a bottle from your druggist. Take it all according to directions, and if it does not benefit he will return your money.

The committee is ordered to report to the senate, suggestions or recommendations as to the remedy to be applied to reduce the cost of living and accompany its report with drafts of bills for legislation as will, in the opinion of the committee, correct and remove the causes which have enhanced the prices of the necessities of life.

It is entirely in place to talk of a conservation of forest and water power resources, but far transcending this is an agitation looking to such handling of the rich soils to be found almost anywhere as will result in a conservation of their fertilizing elements, those factors that really give them worth as soils. Could the loss which we have sustained in this regard be known and the figures representing it be expressed in black and white it would be a total staggering belief.

IF YOU HAVEN'T TRIED

THE GREAT ROOT JUICE

Ask your Friends who Have.

Root Juice has made so many wonderful cures all over the state and has done so much good here that any sensible person, after investigating, will be convinced of its great merit. If you suffer with your stomach, liver, kidneys or nerves or any trouble created by a weakened or diseased condition of these organs, Root Juice is the very remedy you need. It absolutely removes the cause of bloating, belching, constipation, heartburn, sick headache, backache and rheumatism. They will tell you all about it at the People's drug store. It is one dollar a bottle, or three bottles for two dollars and a half.

Eat Zeigler's bread

Thirty inches of snow on a level in most of the north, central and eastern states, accompanied by blockade of railroads, scarcity of fuel and intense cold, suggests the fact that the climate has not changed enough so that we are rid of the "old fashioned winter."

Latest reports show that there are now in operation throughout the country 40,004 rural mail routes, aggregating more than 1,000,000 miles and serving about 20,000,000 patrons. To date the innovation has cost the government \$170,000,000. The system lacks about \$17,000,000 a year of being self maintaining.

If there is any one condition that a dairy or meat animal should be spared during the winter months it is a wet and nasty place in which to rest at night. Not only does such a condition mean lack of comfort for the animal, but they are likely to produce or aggravate tubercular tendencies and any other ailment that is promoted by dampness and filth.

The apple maggot is a pest which affects this fruit in some sections of Maine, and it is said to be infinitely worse than the larvae of the codling moth, as many of the maggots will infest a single apple and often entirely honeycomb it. One of the worst features in connection with the pest seems to be that it cannot be readily reached by the arsenical sprays which are so effective in holding the codling moth in check.

Daily Gain In Weight

Comes to Those Who Use Samose, Says Druggist L. M. Buehler.

The poor, thin, emaciated person, when he or she becomes plump, rosy and robust by using Samose, forgets that there is such a thing as weakness and underweight.

Samose restores health to the whole system so that the tissues assimilate from the food all of those elements which make solid bone, firm muscle, pure blood, and sufficient fat to restore beautiful and symmetrical outlines to the figure.

An increase in weight is seen from the first week's use of Samose, but if it does not restore you to your proper weight and give you full vigor and vitality, Druggist L. M. Buehler will return your money. You certainly can afford to try Samose on this guarantee.

TERRIBLE CROUP

My little boy, who is four years old, has suffered a lot with croup. On several occasions we thought he was gone.

After trying all the old time remedies and most of the new, I came home one night at midnight, and my wife said, "The boy has the croup again—suppose you get a bottle of Hyomei!" "More junk," I said, "but we will circulate our money so they all will get some."

I hastened to an all night drug store, brought it home. In five minutes he was breathing easier. In fifteen minutes he was sound asleep. It broke the croup so quickly it scared me.

Anyone wishing to cure the croup of a child I hope will give Hyomei a trial.

Wishing you the best of success, which you surely deserve, I remain, Jos. E. Clark, 204 6th St. S. E., Washington, D. C. Oct. 7, 1909.

Hyomei is a remarkably effective remedy in case of croup and it should be in every home where there is a croupy child. Full instructions how to cure croup comes with each outfit.

Complete Hyomei outfit, including inhaler costs \$1.00 at druggists everywhere and at People's Drug Store. It is guaranteed to cure catarrh, coughs and colds.
